

## **Vulcan – Electronic water treatment**

**Vulcan is based on the technology of physical water treatment.**

**The Vulcan electronic anti-scale system alters the crystal structure of the calcium crystals by an electronic impulse that is generated outside of the pipe.**

CWT hereby explains, that Vulcan will not affect metal pipes or any other metal equipment.

A handwritten signature in blue ink is positioned above the company name. The signature is stylized and appears to be a cursive representation of the company name.
